

SeraSense SF MTM

INCI: Methyl Trimethicone

Benefits

Excellent compatibility

No irritation

High volatility

Odorless

Ultra high purity

Description

SeraSense SF MTM is branched type volatile silicone fluid having faster volatility and lower freezing point than D5. SeraSense SF MTM 's unique sensory profile provides improved skin wetting and a quick flash-off that leaves a dry, silky feel on skin with no buildup. And it has excellent emolliency and aesthetic carriers with superior spreading, lubrication and transient conditioning.
