

Tinci Product Specification

Issue date: March 3th, 2014

Version: A/1

Trade Name: TC-CARBOMER 276

INCI Name: CARBOMER

Parameter	Value	Lot Test Frequency	Method
Appearance	Fluffy, white powder	Each Lot	TC-OI-TSC-005:001
0.5% aq Viscosity (mPa.s, 20 rpm, 25°C, Neutralized solution)	45000-80000	Each Lot	TC-OI-TSC-005:017-15
0.5% aq Solution Clarity (%Transmission, Neutralized Solution 420 nm light)	≥80	Each Lot	TC-OI-TSC-005:054
Residual benzene (%)	≤0.50	Each Lot	TC-OI-TSC-005:050
Lose on drying (%)	≤3.0	Once / 10 Lots	TC-OI-TSC-005:007

Tinci methods are available on request. Refer to the technical data sheet for typical properties and performance characteristics of this product.

Tinci certifies that this product will meet the above specification requirements until the expiration date of the product, when properly stored in the original, unopened container.
